

RedLine PTI Pack

An Easy Start to PTI Compliance

RedLine PTI Pack is a practical solution to generate PTI Labels in the packing shed, cooler or distribution center. We've got you covered!

PTI Compliance Labeling System

Now you can quickly and easily meet your customers' PTI labeling requirements with RedLine PTI Pack. This economical and easy to use labeling system allows you to print PTI compliant case labels as well as hybrid pallet tags from a Windows desktop or tablet PC. The system maintains a record of all the labels printed by commodity and GTIN, who printed them, and how many were used. This cost effective program can be installed quickly and easily and can have you printing PTI compliant labels in no time.

Adaptable to Your Business

At RedLine Solutions, we understand that every company has unique processes for labeling and getting product to market. Our products have built-in flexibility to work the way you do. RedLine PTI Pack allows you to select products by internal item/SKU or commodity, pack style, size and brand. You can print your labels in the office, in the packing shed or in the cooler. With our PTI Pack labeling system, you can print case labels and SSCC hybrid tags for multiple companies/brands and an unlimited number of GTIN/SKUs.

PTI Pack Features

- Quickly and accurately generate PTI-compliant case labels
- Build hybrid pallets and print SSCC hybrid pallet tags
- GS1 Standards Compliant
- Easily import your existing company and product GTIN information
- Complete transactional history including date/time, user, labels printed, labels used
- Allows administrator to maintain company, product, commodity and lot information including GTIN and internal SKU numbers

"RedLine is committed to helping produce companies of all sizes manage their traceability requirements."

Todd Baggett, President/CEO, RedLine Solutions

PTI Packing Plan

The source of information for your packout

Print Labels

Apply Labels

Apply labels based on what works for your packing operation

Label Printing Audit Trail

This includes the item, quantity, operator and time

Print Hybrid Pallet Tags

Build and print hybrid tags when staging product for shipment

Complete Solution

RedLine offers everything you need to get up and running quickly. This includes the PTI Pack software, hardware, labels, and technical support to start generating labels. We also provide ongoing repair and maintenance services.

Fast Easy Deployment and Ease of Use

You'll be up and running in no time with RedLine PTI Pack. Reporting options offer you the ability to review a complete label printing history including the items, their GTINs, quantity, operator and time. This information can be easily printed, emailed or saved for future use.

Flexible System Can Be Adapted to Your Business

Whether you need a single printing station or have multiple stations, PTI Pack can be scaled to meet your needs. Your information can be manually entered or imported from your GTIN spreadsheet. The data setup and maintenance screens are password protected to ensure that only authorized personnel gain access to make changes.

Path to the Future

RedLine Solutions offers a full suite of Whole Chain Traceability solutions. With RedLine PTI Pack, your initial investment allows basic PTI compliance. When you're ready for expanded functionality, we'll be there to help. RedLine is committed to traceability solutions. We constantly enhance and update our products. As traceability standards evolve, we will be there to help you meet the changing requirements.
